

Karam Kimya Certified with ISO 22000 (ACERTA & IHC).

Dear Clients,

We are pleased to announce that **KARAM KIMYA** and Its Brand **FIVOUR** have successfully achieved the **ISO 22000-2018** certificate applicable to food safety and the **HALAL** Certificate. The company also successfully passed the Hazard Analysis and Critical Control Point (“HACCP”) requirements, including Good Hygiene Practice (“GHP”) and Good Manufacturing Practice (“GMP”) as one of the components of the HACCP requirements.

ISO 22000 was developed as a food safety standard to acknowledge that the consequences of unsafe food can be serious. ISO’s food safety management standard helps organizations identify and control food safety hazards to provide a layer of reassurance within the global food supply chain, helping products that people can trust cross borders.

Thanks for being our valuable customer.

Best regards,

Adil Zafar,

0300-9257055.
